

Assignment No : 7 & 9

Team Building Activity & Lateral & Creative Thinking

Group Members:

1. 23382 – Madhav Jadhav
2. 23369 – Sairaj Mane
3. 23385 – Priyanshu Mahukhaye

Even Bad times come to an End !

A boy named Mikey who was an orphan stayed in an orphanage with his elder brother Ken. Mikey and Ken had difficult times mixing up with other children at the orphanage, they only spoke with a few other children whose names were Baji and Hanma. Later they formed a friend circle which included Mikey, Ken, Baji, Hanma, Chifuyu and Mitsuya, they all stayed together during classes, during break and playtime they basically bonded together as brothers.

A few months later one day Baji found out that the orphanage was not actually what they thought of as a home but instead he saw that the care takers and the people who run the orphanage actually sell the children for their organs, they select the children whose existence is unknown to the Outerworld and Government and who do not have any Relatives, so that no one will come after looking for the children.

Baji immediately rushed quietly towards Mikey and Ken's room and asked his other friends to sneak in quietly. Baji then told everyone what was happening in the orphanage and after hearing this Ken said that he was suspecting something because when the children left the orphanage he never saw anyone take their belongings with them it was just an act played by the care takers to show as if the children were getting adopted and were going to a better Home.

The group then started analysing and checking who could be their next target that's when Hanma pointed towards Chifuyu and said "I think he might be next" to this everyone asked why does he think that to which he replied "a few days ago I heard some care takers talking about how sweet of a boy Chifuyu is, its sad that he has to go now" at that time I thought that Chifuyu might be getting adopted, so I decided to keep it a secret and wanted others to enjoy the few time he has with us. I never thought that what they meant was something else. After hearing Hanma's thoughts Chifuyu started crying and said "Please save me I don't want to die".

Ken immediately calmed Chifuyu and said "No one will take you away we will protect you", then Ken asked everyone to have a proper sleep for now and remember not to leave anyone from the group alone not even for a single minute. Then everyone left the room.

Ken then asked Mikey to sleep well and then Ken turned off the lights. Ken could not sleep as he was worried that there will be a time when the care takers will come for them, so he started forming a Plan.

In the morning Ken asked everyone to meet him in the playground. After classes everyone went to the playground and met Ken. Ken then told everyone about the plan, he told

everyone that they were going to escape from this Orphanage and live a life of their own, not depending on anyone. The plan was to steal the extra duplicate keys from the main security room as no one remembers that there are more duplicate keys, as the caretakers only use the master key, so there won't be any suspicion even if the duplicate key is missing for this Ken asked Mikey to go in the security room through the vents which are not functional due to maintenance. Ken then asked Hanma and Baji to burst crackers in different locations on the day of executing their plan to distract workers. And then asked others to be ready to escape. Then Ken said that we only have 2 days to execute our plan as I have noticed a pattern that the children are only taken away when it's the week end, as they want us to think that people come here to adopt children when they have holiday from their work.

Next day Hanma rushed towards Ken's room and said "I can't find Chifuyu" Ken panicked and said "How is that possible it's Thursday" there won't be anyone coming today are you sure he is nowhere in the orphanage, Hanma replied "Yes we checked everywhere and couldn't find him, I think we forgot one thing we are not connected to the outside world and hence we don't know that if we are following the proper day cycles, I think the caretakers know that children might catch up with their plan and hence didn't give us proper information of the outside world.

Mitsuyu started crying and said "When will our Bad Time End?", others also felt sad, but Ken controlled his sadness and did not cry instead he decided to execute the plan today.

In the evening everyone started to execute their work and decided to meet at the big tree near the main gate. Everything was going fine and everyone came near the big tree, but Mikey looked sad as he could not enter the Security room as its maintenance was over and the vents were sealed tight.

Ken said no worries I knew that there might go something wrong and hence before Hanma and Baji bursted the crackers I modified the storage room lock in such a way that when the key will be inserted in it the key won't come out and the caretaker will try hard to remove it, but it won't work that's when the crackers will burst and the caretakers will rush to see what's happening. Then I will remove the Master Key from the lock as I know how to unlock the Modified Lock.

As no one was guarding the main gate Ken and his friends opened the main gate and ran towards freedom. Ken saw a police station and went there to report the incident the police checked if the children were not joking and found that the Mikey and Ken were not orphans but children who went missing when they were small, but checking for others they found that they were actually orphans.

The police then reunited Mikey and Ken with their parents and after hearing their story his parents decided to Adopt the friends of Mikey and Ken.

Mikey then said "**Big Brother Even Bad Times come to an End**".
